FILTER IT INSTEAD!**

*and tough boats!*

**TURNING TOUGH TRUCKS INTO GREEN MACHINES!**

On behalf of the U.S.A. World Jet Boat Race Committee, WELCOME to the rivers of Idaho for the 2012 Toyota Weaver Seed World Jet Boat Marathon! Our Idaho host cities and hundreds of committed and impassioned volunteers have worked hard to make this a memorable event. The world of jet river racing has gathered to crown an Overall World Champion and five Class Champions. You will see an international contingent of racers representing the four countries of Canada, Mexico, New Zealand and the United States that rotate the privilege of hosting this remarkable event.

We will showcase multiple world champions, wily veterans and greenhorn rookies. You will see boats with exotic turbine engines, similar to the kind that power helicopters and locomotives. Expect to see boats with V-8 engines, many closely related to the one that may live in your car or pickup-be it Ford, Chevy or Mopar. These boats are welded together out of pieces high strength aluminum and outfitted with roll bars and five point seatbelts. All of it pushed across the water by a high pressure, high volume stream of carefully controlled and manipulated water. The very same water that provides such a dynamic and unpredictable surface that will challenge the skill and mettle of all who wish to be crowned champion.

Idaho jet boat river racing heralds back to the early 1980's. The St Joe, Snake, Clearwater and Salmon rivers each provide a divergent and different aspect to the waters that will challenge man and machine. Shallows, rocks, swift water and yes, even cataracts-obstacles and rapids with names like Time Zone, Tight Squeeze, 911 Rock, Glass Wave and the Rock Garden await to challenge and try our racers.

Jet boat river racing on free flowing rivers involves running predetermined courses in the least amount of time in both directions! The boats are released at one minute intervals to run against the clock. You will see and encounter over 500 miles of racing crammed into just seven grueling racing days. Race crews and machinery will be pushed to perform beyond anything normal. Months of preparation, planning, testing and adjusting will be put to the ultimate test. At times and in a few places some of these boats and their crews will be traveling in excess of 120 miles per hour - covering the length of a football field in less than two seconds. Even the "slowest" boats will be traveling at velocities that would earn you a citation on the interstate. For safety, we ask that you stay well back from the waters edge and heed and obey all signs and cautions; they are there to help ensure a safe and enjoyable experience for you and yours while still allowing you to have all the sensory input you desire.

So sit back, jump up, stand and cheer! Prepare to be amazed and thrilled by the awesome spectacle that is jet boat river racing!

Gary Labrum  
Race Director

# Spectator Safety Message

Race boats are traveling at very high rates of speed.

If you are planning to be on the river in your boat as a spectator, please launch your watercraft at least two hours before race time to avoid interrupting the race and possibly creating a dangerous situation.

Please keep boats parked until all racing has completed for the day and all race and safety boats are off the water.

All spectators and pets must be 50 feet from water's edge at all times.

Please respect all race course signage and race officials.

Please refrain from entering restricted areas such as racer hot pits and launch sites for racing teams. Absolutely no smoking or open flames are allowed in these areas.

## About the Race Flags

**WHITE FLAG** – The white flag will be raised at the starting line one minute prior to the designated starting time of the first race boat of each leg and lowered (simultaneously with the raising of the green flag) ten seconds prior to each designated starting line.

**GREEN FLAG** – The green flag will be raised ten seconds prior to the designated starting time of each race boat and then lowered at each designated starting time. When the green flag is lowered its 'GO' time! That is when each race boat's running time begins to accumulate. The green flag will be raised again ten seconds before the starting time of the following race boat.

**BLACK & WHITE CHECKERED FLAG** – The black & white checkered flag is raised with the arrival of each race boat at the finish line and lowered when the boat crosses the finishing line.

**YELLOW FLAG** – When a yellow flag is displayed approaching boats should proceed with caution until they pass the problem area.

**RED FLAG** – When a red flag is displayed all approaching boats must stop. A red flag implies danger or an emergency.

**BLACK FLAG** – When a black flag is displayed by a race boat, it means the boat needs a tow. A black flag displayed at the starting line indicates the race course is closed to racing teams.

## The Winner's Circle

Four countries currently rotate the honor of hosting the World Jet Boat River Marathon Championships – New Zealand, Mexico, Canada and the United States of America.

In 2011, Canadian Unlimited Jet Class driver Gord Humphrey and navigator Chris Zapesocki outraced the competition in their boat, Unnatural Disaster to become the current World Champions and earned the distinguished boat number, CDN-1.

Who will be crowned champion in this year's 2012 Toyota Weaver Seed World Jet Boat Marathon? That remains to be seen. So keep your eyes on the water and enjoy all the excitement as we find out who will be the next to clinch the World Jet Boat Marathon Championship title!

### A brief history of past winners...

**1978**, the first World Jet Boat Championships are held in Alberta, Canada. New Zealand driver Reg Benton and navigator Tony Ward, builder of Kwik Kraft Boats win in a Gale Bank turbocharged 454 powered V bottom boat.

**1979**, held in Mexico and won by driver John Heslop of New Zealand in a Hamilton V bottom boat with 454 turbocharged Chevrolet power.

**1980**, Mark Cromie of New Zealand wins the world championship in his native country in a 454 turbo V bottom boat. This also marked the first time an overseas competitor came to NZ. Bob Bradley of Las Vegas, Nevada braved the shallow braided rivers in his high powered fiberglass V bottom and retired after 15 minutes of competition.

**1981**, hosted by Canada and won by Max McKenzie of New Zealand in a big block Chevrolet powered V bottom boat.

**1982**, held in Mexico and won by local racer Javier Tellaria.

**1983**, driver Mark Cromie of New Zealand reclaims the championship crown in an aluminum V bottom boat with a 454 turbocharged engine.

A number of outstanding events occurred that have helped shaped the face of river jet boat racing. Driver Tony Ward won second place overall in a Kwik Kraft tunnel powered by a small block Chev with a Berkeley Jet. This was the start of the evolution of using tunnel boats and Berkeley Jets.

Also present was the first Canadian to compete in NZ – Fred Chrnyk in #307 Canadian Club, a 19' aluminum V bottom built by his company Frebar Marine of Red Deer, Alberta. Chrnyk used a 460 Ford engine and a Berkeley Jet to set a fast time on the Manawatu River. This boat is still a legend in NZ as the locals were amazed at the boats performance in rough water. Chrnyk was unable to complete the race after a spin on the South Island damaged the steering. 'Canadian Club' then returned to North America. This boat's performance led to the top U.S.A. race boat builder, Doug Riddle of Lewiston, Idaho developing a line of dedicated race boats.

**1984**, driver Rob Chrunk pilots a 19' Bitz fiberglass V bottom with a Berkeley jet and Ford power. This was the last time a fiberglass hull was to win a World Championship.

**1985**, held in Mexico and won by Marv Hamm in an aluminum tunnel boat of his own design with a Berkeley Jet and a Donovan/Chev aluminum motor. This was the start of the change to large cubic inch motors.

**1986**, Ken McDonald, an ex-rally race car driver wins in New Zealand in a Hamilton V bottom powered by a 454 twin turbo motor. More overseas competitors came to NZ including Rob Chrunk and Alex Millar of Canada, as well as U.S.A. driver Leo Wright. Millar was the first overseas competitor to finish a NZ marathon race.

**1987**, held in Canada and won by Dave Freeland of Edmonton, Alberta in an aluminum tunnel, powered by a 496 Chevrolet.

**1988**, the U.S.A. hosts its first world championship marathon on the Snake, Clearwater, and Salmon rivers. Marv Hamm becomes a two-time world champion in a 19' Hamm tunnel powered by a Donovan Engine.

**1989**, driver Bill Roberts of Whakatane, NZ wins the championship in his home country in a 19' Kwik Kraft aluminum tunnel powered by a 496 Chev with a Berkeley Jet.

**1990**, Leo Wright becomes the first American to win a World Jet Boat Championship in Mexico piloting an Outlaw 21' tunnel powered by a big inch Chev with a Berkeley Jet.

**1991**, Idaho's Joe Scott clinched the World Championship title in Canada piloting at 19' Outlaw tunnel with a 540 CID aluminum Chev and Berkeley Jet.

**1992**, Rick Gage of Lewiston, Idaho wins the overall World Championship piloting an Outlaw 19' tunnel powered by a 454 Chev on the Clearwater and Snake rivers.

**1993**, Ken McDonald becomes a second-time World Jet Boat title holder in NZ. McDonald wins in a 19' Hamilton aluminum V bottom. This was the last victory for a V bottom boat or a Hamilton Jet.

**1994**, Canadian driver Spencer King of Hay River, Northwest Territories wins in Mexico.

**1995**, New Zealand driver Ralph Brown and navigator Neil Ross claim victory in a 21' Outlaw/Eagle tunnel hull in Canada.

**1996**, Mark Cromie of Whangarei, NZ wins his third overall World Jet Boat Championship held in California and Oregon.

**1997**, won by Michael Hill of Christchurch, NZ drives to first place in an Eagle tunnel.

**1998**, Spencer King of Canada clinches his second World Championship title in Mexico. King would then go to reign as the current overall champion until 2003.

**1999**, Spencer King wins his third world title in Mexico in a 19' Eagle tunnel.

**2000**, hosted by the U.S.A. Spencer King repeats his championship success on the Sacramento and Yuba rivers in northern California and on Oregon's Rogue River.

**2001**, Spencer King becomes the first overseas competitor to win a World Championship title in New Zealand, also becoming the first driver to win in all four countries.

**2002**, held in Mexico, Spencer King clinches his fifth straight World Jet Boat Marathon Championship, the sixth so far in his career up to this point.

**2003**, Canada's Rob Chrunk takes first place overall at home in an Eagle tunnel. Rob was the owner of Eagle Powerboats, the company he started in 1993.

**2004**, American Leo Wright pilots an Eagle tunnel for his second World Championship title racing on northern California's Feather, Yuba and Sacramento rivers.

**2005**, hosted by New Zealand, Andrew Stuart earns the first win for a Keelow Craft, built by Neil Ross of NZ.

**2006**, Canadian driver Dale Whiteside and owner of Outlaw Eagle Marine of Red Deer, Alberta wins in an Outlaw/Eagle tunnel at the World Jet Boat Championship held in Mexico.

**2007**, Dale Whiteside wins his second overall World Championship title at the Canadian World Marathon, piloting an Outlaw/Eagle tunnel.

**2008**, Spencer King claims his seventh overall World Championship title in an Outlaw/Eagle tunnel racing in both Oregon and California at the U.S.A. World Jet Boat Marathon.

**2009**, James Murdoch of Christchurch, New Zealand takes first place overall in an Outlaw/Eagle tunnel.

**2010**, James Murdoch becomes the first New Zealander to win the championship title in Mexico since John Heslop in 1979.

**2011**, Canadian Unlimited Class driver Gord Humphrey and navigator Chris Zapesocki outrace the competition in their boat, Unnatural Disaster to become the current World Champions and earn the distinguished boat number, CDN-1.

## 2012, Watch and find out!

# Covering jet boat river races for 30 years...

## Frank & Marlene Mignerey, Salmon River Photos

Official Photographers for the 2012 Toyota Weaver Seed World Jet Boat Marathon

Riggins, Idaho residents Frank & Marlene Mignerey (pronounced MIN-ray) have a passion for high octane photos. "You never know what's going to happen," Frank Mignerey said. "That's what makes it so exciting to watch."

Together Frank & Marlene have been covering the Salmon River Jet Boat Races in Riggins for 28 years. They have photographed World Jet Boat Marathon Championships in the U.S.A. and Canada since 1988.

Hundreds of Frank's racing photos have been published in national magazines such as Propeller, Power Boat, Hot Boat & Performance Boats. They have produced over 20 jet boat racing videos & DVDs. When they aren't traveling throughout North America covering jet boat races, you'll find the Mignerey's faithfully photographing almost every local sporting and community event that takes place in Riggins. We are grateful for their generous contributions to this program and the sport of jet boat river racing.

Discover your own favorite Mignerey photograph available at the official world photograph booth at St. Maries, Lewiston, Orofino and Riggins.

Welcome to Fort Hemenway Manor, St. Maries' Historic Inn. Located in the heart of St. Maries at the corner of 10th and Jefferson one will find comfortable accommodations, rich with antique furnishings and a warm and friendly atmosphere. "Breakfast is a culinary delight" to be enjoyed in the dining room or on the porch. Guests can relax on the porch, in the family room, or in front of the fireplace. Beautifully restored, the inn features picturesque guest rooms. Fort Hemenway Manor was built in 1913 as the private home for Fred Hemenway. The home features beveled glass windows, imported chandeliers, oak with inlaid walnut floors, beamed ceilings, tile fire place and fir trim. Come explore the town of St. Maries, located in the Bitterroot Mountains on the St. Joe River. We are a short drive from Spokane, WA, Coeur d'Alene, ID or the historic town of Wallace, ID. Ask about wedding, private party, retreat, or other event packages. Come and be pampered.

Controllking remote throttle for most 4-cycle gas powered trolling motors is what every serious fisherman needs to improve their success. With Controllking, trolling speed can be adjusted with precision from anywhere in the boat. It draws less than 1 amp while the speed is being adjusted so battery draw down is not a concern. Controllking incorporates the following features: A power off/on switch, speed adjustment

knob, run/idle switch to allow you to go to idle and back to the magic speed with one click, and a (MFT) momentary full throttle, which allows you to bump your boat back into control with a burst of power without losing the current speed setting. ControllKing's control is sealed to make it water proof for use in the worst weather conditions.

- ~Random testing of engines will take place
- ~Propulsion – jet drive
- ~Roll bar (well braced & mounted)
- ~Engine shall use gasoline for fuel

Outlaw Marine and Eagle Performance Boats have been built in Red Deer, Alberta area for over 20 years. This history forms the backbone of a company dedicated to building a product which is rugged and functional yet remains esthetically pleasing. Outlaw boats have long been known to be the toughest in industry. Eagle boats have won 15 of the last 18 world championships and are second to none in performance. Through experience gained on the race course and back country rivers alike we continue to strive to build the best jet boats in the industry. For more information call us at 1-403-347-4565 or check out our website at [www.outlaweagle.com](http://www.outlaweagle.com)

## Spectator Safety Message

**Race boats are traveling at very high rates of speed.**

**If you are planning to be on the river in your boat as a spectator, please launch your watercraft at least two hours before race time to avoid interrupting the race and possibly creating a dangerous situation.**

**Please keep boats parked until all racing has completed for the day and all race and safety boats are off the water.**

**All spectators and pets must be**

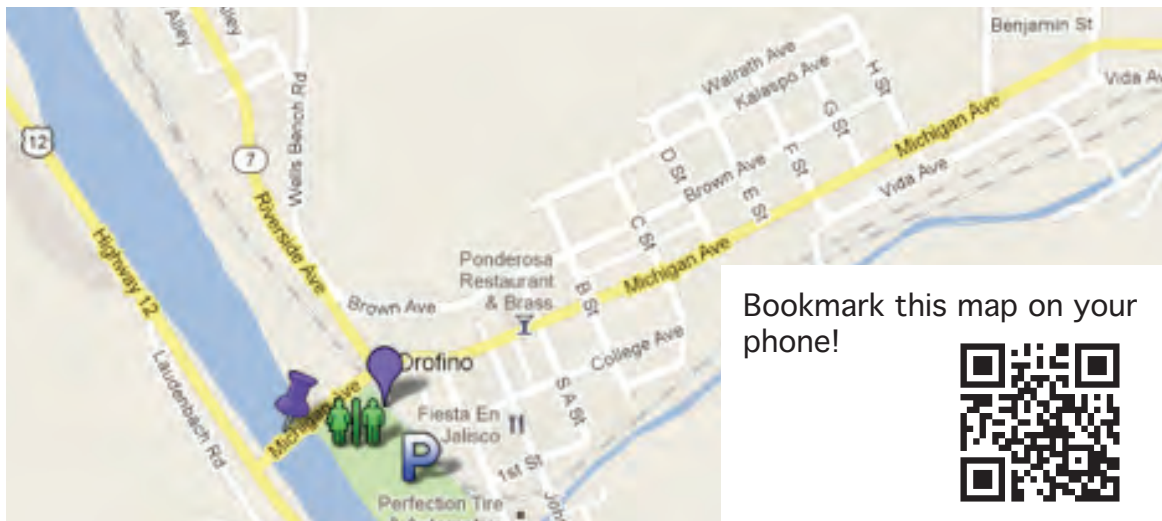

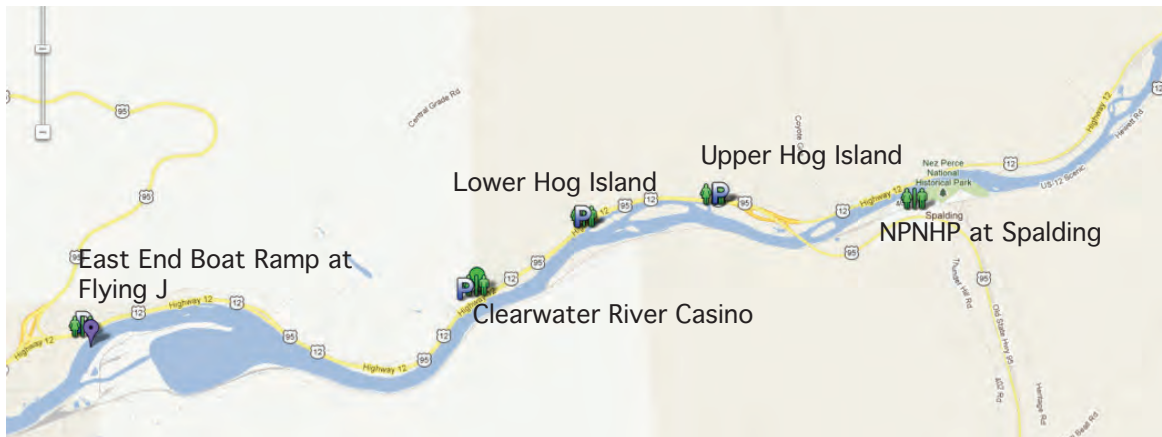

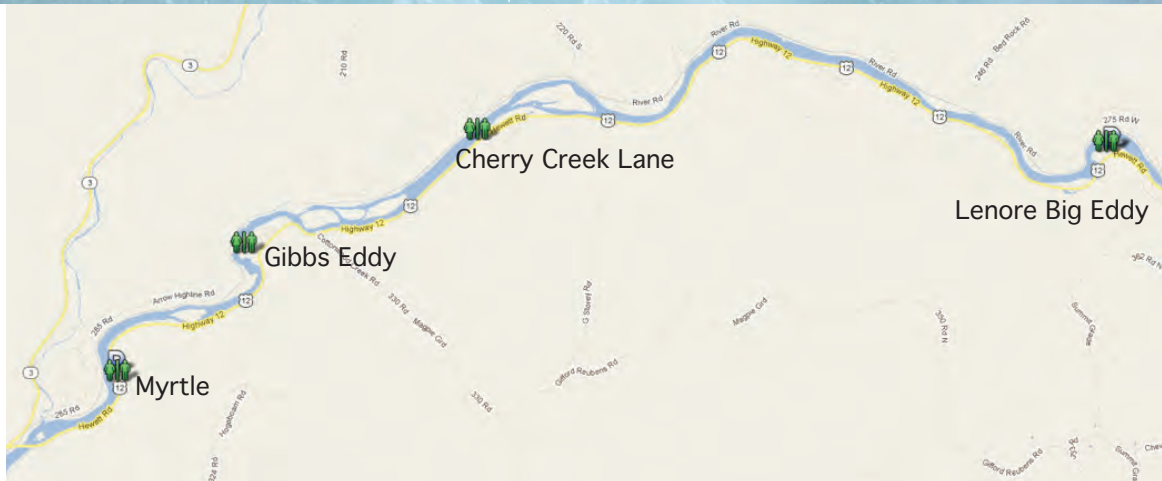

**50 feet from water's edge at all times.**

**Please respect all race course signage and race officials.**

**Please refrain from entering restricted areas such as racer hot pits and launch sites for racing teams. Absolutely no smoking or open flames are allowed in these areas.**

We've been making waves, too.

One of the world's most highly regarded riflescopes is made right here in Orofino, Idaho. For 20 years, we've proven that America can build riflescopes that meet—and beat—the finest Europe has to offer. We run at full throttle and settle for nothing less than maximum performance.

In case you were wondering, Nightforce riflescopes are waterproof. And fogproof, and shockproof...

## BACK COUNTRY MEDICS

### 'We Care About People'

Highly skilled volunteers from Back Country Medics stand ready to care for those injured or seriously ill in North Central Idaho's rugged backcountry.

It is a place where a helicopter pilot's special knowledge of the land and terrain are critical in getting to people and providing emergency care fast.

When people's lives or well being is on the line, contact State Communications or the local sheriff's office and ask for:

**Back Country Medics!**

For more info see our web site at: [www.backcountrymedics.org](http://www.backcountrymedics.org).

They have been taking care of neighbors and visitors for more than 33 years. Their unique skills in backcountry rescue put them in a class all their own. We are Idaho licensed as an ILS and ALS unit.

IDAHO

208-435-4406

Rediscover Pierce and Weippe, Idaho, two hardy and unique rural communities  
nestled on the edge of the beautiful Clearwater National Forest, the Deyo Reservoir  
and Deer Creek Reservoir. Gold was discovered here in 1860, and today there are  
golden opportunities for outdoor enthusiasts, potential new residents or small businesses.

Located along Hwy. 11, the Gold Rush Scenic Byway, this gorgeous country is  
like no other. Ski, hunt, fish, ATV, snowmobile, hike, ride — it's all here. Come to the  
"hilltop" ready for spectacular scenery and unique small town quaintness.

## Spectator Safety Message

**Race boats are traveling at very high rates of speed.**

**If you are planning to be on the river in your boat as a spectator, please launch your watercraft at least two hours before race time to avoid interrupting the race and possibly creating a dangerous situation.**

**Please keep boats parked until all racing has completed for the day and all race and safety boats are off the water.**

**All spectators and pets must be 50 feet from water's edge at all times.**

**Please respect all race course signage and race officials.**

**Please refrain from entering restricted areas such as racer hot pits and launch sites for racing teams. Absolutely no smoking or open flames are allowed in these areas.**

Weaver Seed of

regon

**Gary and Andy Weaver realize how little things can make a big difference.**

In 1981, the Weaver's started their business with one goal in mind. To produce and process quality vegetable seeds (turnip greens, collard greens, mustard greens, etc.) for the Southern United States greens market. They also wanted to break into the specialty sprouting market in Asia. So the Weaver's embarked on a 17 day trip throughout Japan visiting with future customers in Tokyo, Hiroshima, Fukuoka and Osaka. This first international trip provided the company with 250 acres of specialty seed contracts. This market has continued to grow over the years and is one of the company's main stay markets.

Now with production of specialty seed in Oregon, Washington, Idaho, California, Colorado, Nebraska, Texas and New Zealand the company has over 3,000 acres in production. Weaver Seed of Oregon ships product to three major export markets, providing seed for fresh sprouts and vegetable seed to all western, southern and eastern states in the United States.

Weaver Seed of Oregon has been recognized as a company that gives back to its community. The Weaver's are proud of their work and donations to Linn County Oregon Search and Rescue Training Camp, CASA, Albany Boys & Girls Club, Scio Boys & Girls Club, St. Jude's Children's Hospital and many other wonderful organizations.

After the devastating 2011 earthquake and tsunami caused a number of nuclear accidents in Japan, Weaver Seed of Oregon donated sunflower seed to be used in the cleanup of radioactive soil. Japanese researchers believe growing sunflowers will remove radioactive cesium from contaminated soil around the Fukushima nuclear power plant, and are planning a project to plant as many of the yellow flowers as possible. After the 1986 Chernobyl nuclear disaster, sunflowers and rape plantings were used to decontaminate soil in Ukraine. Radioactive cesium is similar to kalium, a commonly used fertilizer. If kalium is not present, sunflowers will absorb cesium instead. Many are hoping the sunflower will become a symbol of recovery in the areas affected by the nuclear crisis in Japan. It's amazing how a little seed can make such a big difference. Weaver Seed of Oregon welcomes everyone to enjoy the world jet boat races and spectacular beauty of north central Idaho!
